[TESTIMONIALS](#)

A 3-port workstation with convenient access to the entire incubation area.

- The built-in rapid airlock allows the transfer of plates in just 60 seconds.
- A colour, touchscreen control panel for ease of use and for visual display of parameters such as temperature, humidity, and airlock cycle status.
- Ethernet-enabled for remote access to touchscreen.
- Optional removable front with instant access or traditional sleeved ports.
- Available with a mixture of instant access ports and conventional ports to give you the best arrangement for your application
- Includes an automatic commissioning cycle to save you time and resources.
- Optional accessories include the [Automatic Gas Changeover Unit](#) - never run out of gas again!

The A45 Anaerobic Workstation, like our other anaerobic workstations, enables the processing, incubation and examination of samples without exposure to atmospheric oxygen. This workstation has three ports for convenient user access to the entire incubation and working areas.

Sample manipulation within a secure anaerobic environment is now as easy as working aerobically at the laboratory bench.

[VIEW SPECIFICATION](#)

Need more space and two airlocks? The A55 might be the solution.
